2	… a single USB cable connected to your computer is the only lead you need.	●	○
3	Despite its diminutive size, you'll find that the ODB25 is big on resolution.	○	●
4	… the 1200 x 2400dpi and 48 bit colour depth specification reproduces fine details …	●	○
5	A 'Scan to PDF' function scans documents straight to PDF …	●	○

3 *Complete this review of a digital camera by typing in the superlative form of the adjectives in brackets.*

HELP?

With 6.0 megapixels and 3x optical zoom, the D930 is (1) (good) the best high resolution digital camera available in this price range. You can use the D930 to produce some of (2) (sharp) the sharpest images possible and take detailed photos for printing up to poster size. In addition, it has a 3x optical and 5x digital zoom, giving 15x total zoom when combined – (3) (high) the highest in any digital camera under £50. ASR technology prevents the degradation of image clarity and colour common in flash photography. With ASR, the effects of camera shake are reduced in lower light conditions; you can even take well exposed, sharper pictures in low light without using a flash at all. It guarantees (4) (bright) the brightness and (5) (natural) the most natural pictures possible at this price.

4 *Choose the correct suffix from the drop-down menu to change each of these words into an adjective or noun.*

HELP?

1 addition al (adjective)
2 play er (noun)
3 control ler (noun)
4 process or (noun)
5 optimize d (adjective)
6 power ful (adjective)

Now listen to the words and practise saying them. Note where the syllable stress is.

5 *Now complete this review of a digital camcorder by typing in the nouns and adjectives from Exercise 4.*

The DF201 benefits from a (1) powerful optical zoom lens and a video image (2) processor designed for High Definition (HD) recording. Features include a 'Quick Start' button and an intuitive menu system, easily navigated using a joystick (3) controller. The camcorder is (4) optimized for high-resolution true widescreen recording and offers (5) additional features such as a 2.7" LCD and a 0.27" 16:9 colour EVF (Electronic Viewfinder), which allow users to compose and play back video in the same dimensions that it will be displayed on a widescreen TV set. It is then a simple process to finalize the DVD in-camera before playing it back in a compatible home DVD (6) player.
